

A Students' Perspective

The Auburn Education Foundation helps our schools and our community in many different ways. The Foundation helps our schools through grants which support necessary programs for schools as well as, programs for the classroom. The grants given by the Auburn Education Foundation (AEF) help E.V. Cain, Skyridge, Rock Creek, and Auburn Elementary School. We asked each principal to tell us, what was the most memorable AEF grant? The E.V. Cain principal, Mr. Ittner said, "The sixth grade computer lab was the most memorable thing the AEF helped us build with a grant." Mr. Pickett at Skyridge, and Mrs. Flint at Rock Creek both agreed that the school librarian was the most memorable grant from the Foundation. Mr. Schug said, "The Auburn Education Foundation has fulfilled almost every request they (Auburn Elementary) have asked of them."

Mr. Ittner, Mrs. Flint, Mr. Pickett and Mr. Schug would all like the community to know about the AEF is that they help with funding school needs, and teacher requests. They also understand that lots of people work hard to help with the school funding. The community can support our schools and by attending Auburn Education Foundation fundraisers at many of the schools sites. Hope to see you at the Bob Milne Concert in November and the St. Patrick's Day Dinner in March.
