

# The Auburn Education Foundation

Making Dreams Come True

P. O. Box 6313 \* Auburn, California 95604

## MINI-GRANT PROJECT REPORT

The Auburn Education has been happy to help you enrich your educational program. We hope that you will continue to seek support through the Foundation. Please, so that your ideas may be shared with other staff and also to ensure your continued eligibility for future grants, take time to complete the Project Report. Return it to the Auburn Educational Foundation, attention: Project Report Chairperson. Your Project Report, along with a summary of your project, will be included in the AEF Binder available at each site. If you have not already done so, you will need to submit all receipts with this report. Thank you

Name: Joy Nesmith Date: Spring 2003  
Team Members: \_\_\_\_\_ Project Title: Digital Camera  
School: Auburn Elementary Allocation: \$250.00  
Grade (s): 2 Phone No.: 530-889-0345

Thank you for responding to the following questions:

Describe the results of your project.

Our digital camera has opened many new doors to "seeing" ourselves! The photographs have enriched every aspect of our days! The immediate feedback has made all the difference!

How was student learning enhanced?

My students have enjoyed the photographs so much! They love to re-live their adventures through them! Their written and oral language have blossomed by telling about them!

How was the curriculum of your class (or school, if applicable) enhanced?

The digital photographs have enriched every area of the second grade curriculum by allowing the students to see themselves and their activities over and over again!

How were you able to involve Parents? Community? Businesses?

Our parents have been thrilled to see the photographs in our class album, on display around the room and especially at "Open House" in our "Wall of Photos". The photos have been shared with A.E.F. and our P.T.A.

How adequate was the funding to complete your project?

The \$250. grant was an integral part in funding the purchase of our camera. I was able to add \$250. from P.T.A., as well as, an equal part of my own funds.

How will you share your project with others?

The camera has been used to document every activity possible at A.E. The camera has also been used to document every A.E.F. fundraiser since that time. It has also been used to document other grant projects.

Can your project be replicated?  
This camera can be enjoyed for years to come!

How might the Auburn Education Foundation be helpful to you in the future?

In the future it would be very helpful to have a class printer that was able to print the excellent photos taken.

Other Comments.

Thank you! Thank you!

Please submit a picture or pictures of your project if possible.
